

Ultimate Wild Cat Experience

Tour Information

Our savanna is the largest cheetah habitat in Australia. Being on the savanna creates a wild like environment for the cats that call our centre home, and allows them to experience a full range of natural behaviours.

Every day our cats are provided the opportunity to extend their lives beyond the boundaries of their habitats and investigate the ever changing sounds, smells and sights of our savanna. This allows our cats to have choice over their day, make their own decisions and ensure no two days are the same. We aim to have as little routine in their days as possible, so each cat heads out to the savanna at a different time daily, and it is for this reason that we can never guarantee which cat you will join when you visit.

After meeting one of our staff members at our entry to start your personalised tour, you will walk on foot out to our savanna to observe which ever cat is out there at the time. Watch as our cats show off their natural behaviours only metres away from you, walking, running or investigating the savanna, showcasing what makes these animals so special. A once in a lifetime experience being only metres away, with no fences between you and our cats!

Our tours are designed to educate visitors on our conservation initiatives and for you to witness our cats in as close to their natural environment as possible, as well as getting a true understanding of these amazing animals with no fence between you and them. One of our staff will capture photos whilst you are on the savanna (see example photos on this page), with these photos emailed to you a few days following your visit. this will allow you to fully immerse yourself in your visit and the moment, as well as respectfully sharing the space with our cats.

Following your savanna experience you will finish with a guided tour of our centre. You will visit our small cat habitats, including our clouded leopard, caracal and serval, learn about the work we are doing to conserve wild cats both here in Sydney and overseas, raising awareness of the plight and vulnerability of the smaller wild cat species.

We do not join groups and you will be the only guest's onsite during your visit.

Availability: This tour is only available Wednesday – Sunday at 10:30am or 1pm.

Duration: 60 minutes

Restrictions: For ages 16-70 years. Certain fitness level required. Covered shoes must be worn
