GAMESHOW FUN

We've crafted a fun, cheesy and super interactive team activity that combines trivia, interactive games and challenges, with belly laughs for days.

Each game includes an audio visual introduction to set the tone for that round. This is high energy and interactive entertainment.

Gameshow is the perfect entertainment option for your team dinner or lunch and certain to be a world away from any quiz night or pub trivia you may have seen in the past.

Each of the 10-12 rounds is derived from popular quiz shows. We'll tailor the game content to suit your group and can happily include some questions around business content if that's a priority.

All of our MC's are seasoned performers and comedians and can tailor their delivery based on your group and the event style.

With loads of stage and screen experience under their belt, you're in safe hands.
